Subject: Basic Car 3A19 Crime Update (week ending 10/22/16)
From: "PAUL EVLETH" <38086@lapd.lacity.org>

Good Morning,

Attached, please find a copy of the crime update for the week ending 10/22/16 for LAPD Basic Car Area 3A19. This reporting area includes North University Park, El Salvador Community Corridor, and adjacent communities.

In the past week, these communities had a significant decrease in overall Part I crime, including violent crime. The one crime that was classified as violent, an Assault with Deadly Weapon, resulted in an arrest.

Over the past few weeks, we have had a few thefts where the suspect distracted the victim by asking to borrow their cell phone. In some cases, they have stolen other items, and in the most recent incident, the suspect asked the victim to look up bus route information when the suspect suddenly grabbed the cell phone from the victim's hand. It's always good to be helpful, but if someone asks any questions pertaining to your cell phone, try looking that person in the eye and say you are too busy to talk. Walk away from the individual and keep yourself safe; hopefully preventing your property from being taken.

However, if you are in fear for your life and/or the individual has a weapon, never place property above you and your family - it is best to hand over what they are asking for and get away as quickly as possible - try walking towards other people or enter a place of business. Contact 911 immediately.

Tip of the Week: When calling our non-emergency dispatch number (877-275-5273) or 9-1-1, please be as detailed as possible. If you have more info, please offer it to the operator even if they do not ask for it. If the police have not arrived yet and we are still needed by the community, PLEASE call back so that the operator can inform the officers that you are still waiting. This helps out greatly and assists the officers with prioritizing the many calls for service they receive on a daily basis.

Please let me know if you have any questions or if there are any specific areas of

concern in the community.

Sincerely,
Paul
